

**CPC/PI Report 4/20/22**

**Sara Kline**

**TCU Update**

**Sara K, Kim S, Christi M, William W, Caroline H all met with Texas Christian University Nursing Students for the Cooperation Professional Communities (C.P.C.) Presentation Harris College of Nursing and Health Sciences and the Harbor Group of Alcoholics Anonymous on March 15, 2022, for three sessions.**

**Kim S, Christi M, William W, Caroline H shared their stories and their recovery as related to the program of Alcoholics Anonymous**

The speakers were very well received and did an amazing job.

Supporting Literature was offered as well as the participants names and phone numbers if they are interested in attending an open meeting. There was also a little time for Q and A.

The professor gave us thank you gifts along with thank you letters from last year's presentations.

Sara will put them in a binder to share with the members of Harbor.

Since then, many of the TCU nursing students have attended Harbor Open meetings and some have even contacted Caroline to accompany them.

**UNT Update**

UNT presentations have been put on pause until Fall of 2022. Sara will begin the planning in Fall of the 2022-2023 school year with Dr. O to reserve a space for the event which must be done by October.

We discovered this late in our planning process, but fortunately UNT is still eager to participate.

Sara cancelled with Kim and Melissa who would have been the presenters for this year.

**Zoom Report for Harbor Group Steering Committee**  
**Submitted by Alton A and Phil P, Zoom Reps**  
**April 20, 2022**

1. Numbers for the Harbor Group online meetings have remained steady: 7am 35-45, noon 20-25, Sunday speaker 30-35, and Friday 10-15. We still hear multiple expressions of gratitude for all the online meetings which provide connection for those with transportation, health, or geographical limitations. Zoom continues to connect Harbor members who still consider Harbor their home group across many states and regions.
  2. From March, we were able to diagnose and repair the connectivity issues with the speaker meetings. Grateful to the Harbor Club for their assistance.
  3. We are now using the record function on zoom when Scott M is unable to record speakers with his digital recorder.
  4. All the online meetings continue to practice the 7<sup>th</sup> tradition by posting convenient links for making contributions to the Harbor Group quick and easy.
